

The Benefits of AFIX

Continuous Quality Improvement Benefits Private Providers in the following ways:

- ◆ Presents an opportunity for measuring and improving clinical practices
- ◆ Utilizes patient data to pinpoint areas of improvement
- ◆ Concentrates on systems changes
- ◆ Builds staff morale through team participation
- ◆ Extends clinical improvements to other preventive services (asthma, TB, lead screening)
- ◆ Improves patient satisfaction and return visits

Continuous Quality Improvement Benefits Public Health in the following ways:

- ◆ Provides unprecedented access to private provider offices
- ◆ Keeps kids in 'medical home'
- ◆ Presents an opportunity for future collaboration on immunizations and other issues
- ◆ Supports core functions of public health
 - ✓ Programmatic initiatives
